1 A key aspect of Plaintiff's lawsuit exists in the assertion that Plaintiff's own elected and
2 appointed United States Government officials operated a scam enterprise within the government
3 based around using the stock market for bribes, insider trading and quid pro quo payola.

4 Defendants have vehemently denied that any politicians in the government are corrupt. This
5 flies in the face of every poll of American citizens. 99% of Americans would rather kiss a rabid dog
6 on the lips than get near a politician.

7 In 2022 Lake Mead was drained by regional circumstances and a number of bodies were
8 found from organized crime activities.

9 The 2022 the tech financial recession drained the politicians assets and a number of financial
10 bodies were found from organized crime activities.

11 The swamp gets drained, one way, or another.

12 While Defendants argue that "*the average citizen is too dumb to know what is good for*
13 *them...*", and state that the public only "*thinks*" that most politicians are corrupt, the Defendants
14 seek to argue that only Congress people are smart enough to know when a politician is truly doing
15 something corrupt. Plaintiff hereby presents the facts provided in support of Plaintiffs assertion by:

16 **THE UNITED STATES CONGRESS -**

17 **95% of the members of Congress are now involved in national law development (Like**
18 **the American STOCK ACT, https://en.wikipedia.org/wiki/STOCK_Act , which Plaintiff**
19 **helped create) to fully outlaw the ongoing scam enterprise within the government based**
20 **around using the stock market for bribes, insider trading and quid pro quo payola.**

21 If it didn't exist, Congress would not be spending billions of dollars to try to make the laws
22 against these crimes happen and the crookedest members of Congress, and their Big Tech
23 financiers, would not be spending billions of dollars to defeat such laws. The following news and
24 investigation links are submitted as proof of Plaintiff's Assertion:
